

# Sparkasse app: Making a bank transfer using pushTAN

[www.spkwml.de/online-banking](http://www.spkwml.de/online-banking)

 Sparkasse  
Westmünsterland

The following instructions apply to the iOS operating system. The procedure may vary slightly for other mobile phone operating systems.

**1** Start the Sparkasse app by tapping the app icon and then entering your password.

**2** On the homepage, tap the bank transfer (“Überweisen”) icon. You then have three options for entering transfer details.

**3** Select a recipient under templates (“Vorlagen”) or enter the data into the transfer form.

**Tip:** If you have previously transferred money to or received money from the recipient, the recipient details will automatically appear.

Then tap send (“Senden”). Now switch to the S-pushTAN app (step 5).

You can also enter the transfer as follows:

**3.1** Using the photo option: Tap the “photo” icon. Photograph your invoice. The data is transferred to the transfer template. It is vital that you check the data. Continue with steps 4 and 5.

**3.2** Using a QR code: Tap the “GiroCode” icon. Scan the QR code. The data displays automatically in the transfer template. Continue with steps 4 and 5.

**4** Your transfer details are now displayed. Tap send (“Senden”).

Now switch to the S-push TAN app.

**5** A TAN has been generated in the S-push TAN app. Check the transfer details against the original documents, e.g. invoice. Then tap on approve transfer (“Auftrag freigeben”). Finished. Your transfer has been sent.
